Qualifying circumstances include:

1. A catastrophic event that substantially interferes with normal business operation of the provider, or damage or destruction of the provider's business office or records by a natural disaster, mechanical, administrative delays, or errors by Ambetter or the Federal and/or State regulatory body.
2. The member was eligible; however, the provider was unaware that the member was eligible for services at the time services were rendered. Consideration is granted in this situation only if all the following conditions are met:
 - The provider's records document that the member refused or was physically unable to provide their ID Card or information.

- Corrected claims must be submitted on standard red and white forms. Handwritten corrected claims will be upfront rejected

Request for Reconsiderations

All requests for corrected claims or reconsiderations/claim disputes must be received within 90 days from the date of the original explanation of payment or denial.

A request for reconsideration is a communication from the provider about a disagreement with the manner in which a claim was processed. Generally, medical records are not required for a request for reconsideration. However, if the request for reconsideration is related to a code audit, code edit, or authorization denial, medical records **must accompany** the request for reconsideration. If the medical records are not received, the original denial will be upheld.

Reconsiderations may be submitted in the following ways:

1. Providers may elect to call to Provider Services. This method is for requests for reconsideration that do not require submission of supporting or additional information. An example of this is when a provider believes a particular service should be reimbursed at a particular rate, but the payment amount did not reflect that particular rate.
2. Providers may use the Request for Reconsideration form found on our website (preferred method).
3. Providers may send a written letter that includes a detailed description of the reason for the request. In order to ensure timely processing, the letter must include sufficient identifying information, which includes, at a minimum, the member name, member ID number, date of service, total charges, provider name, original EOP, and/or the original claim number found in box 22 on a CMS 1500 form or field 64 on a CMS 1450 (UB-04 form). The corresponding frequency code should also be included with the original claim number (7 = replacement or corrected; 8 = voided or cancelled) in field 22 of the CMS 1500 and in field 4 of the CMS 1450 (UB-04) form.
4. It is not necessary to attach a copy of the submitted claim.

Written requests for reconsideration and any applicable attachments must be mailed to:

Ambetter
Attn: Request for Reconsideration
P.O. Box 5010 Farmington, MO 63640- 5010

When the request for reconsideration results in an overturn of the original decision, the provider will receive a revised EOP.

Claim Dispute

A claim dispute/claim appeal should be used only when a provider has received an unsatisfactory response to a request for reconsideration. If a dispute form is submitted and a reconsideration request is not located in our system, this will be considered a reconsideration and treated as outlined above.

A claim dispute/appeal must be submitted on a claim dispute/appeal form found on our website. The claim dispute form must be completed in its entirety. Mail completed claim dispute/appeal forms to:

Ambetter

Attn: Claim Dispute

P.O. Box 5010

Farmington, MO 63640- 5010

A claim dispute/appeal will be resolved within 60 calendar days. If the request for reconsideration or the claim dispute results in an adjustment to the claim, the provider will receive a revised Explanation of Payment (EOP). If the original decision is upheld, the provider will receive a revised EOP or letter detailing the decision. Disputed claims are resolved to a paid or denied status in accordance with state law and regulation.
